on weight 557
isolated perfused 222
effect of hexoses on glucagon secretion 222
streptozotocin-diabetic rats 387
lipoxygenase arachidonic acid metabolites 387
vascularized, accelerated rejection 71
pancreas transplant 59
bladder-drained, extraperitoneal placement 59
pancreas transplantation 63, 64, 70
absence of cephalic phase of insulin release 63
enteric or urinary drainage 70
heterotopic, and basal hyperinsulinemia 64
proinsulin and β-cell function 64
pancreas-kidney transplantation 60, 71, 74, 77
cost analysis 71
postoperative neoplasms 74
quality of life 74
rejection rate 60
renal end-stage disease 77
pancreastatin 173
pancreastatin-like immunoreactivity 173
pancreas of newborn rats 173
pancreatic islets 59
adult porcine 59
separation and purification 59
parathormone 334
Graves disease 334
parathormone-related protein 309
hypercalcemia of Walker 256 tumor-host rats 309
parathyroid hormone 39, 338
serum levels in diabetic pregnant women 338
parturition 442
detection of uterine preparedness 442
PC12h cells 14
$Na^{+}K^{+}$-ATPase 14
peptidylglycine -amidating monooxygenase 173
activity in neonatal rat pancreas 173
perinatal hyperinsulinism 213
peripheral blood monocytes, human 438
effect of FSH on IL-6 release 438
effect of LH on IL-6 release 438
from patients with subacute thyroiditis 419
pertussis toxin 116, 374
effect on osteoblast-like cells 116
alkaline phosphatase activity 116
pharmacodynamics
of subcutaneous insulin injection 579
phenylephrine 109
phosphorylation 283
pineal gland 440
pirenzepine 148
effect on GH secretion in NIDDM 148
pituitary-adrenal axis 200
CRH-induced activation 200
effect of alprazolam 200
stress-induced activation 200
effect of alprazolam 200
plasma lipids 100
polymorphism 486
estrogen receptor 486
positron emission tomography (PET) 453
somatostatin receptor positive tumors 453
postmenstrual women 33, 379
lipoprotein(a) serum levels 379
after different estrogen therapy regimes 379
with primary hyperparathyroidism 33
effect of calcium supplementation 33
postprandial thermogenesis 188
effect of Naltrexone in obesity 188
preadipocytes 3T3-L1 92
differentiation 92
prednisone 395
children with nephrotic syndrome 395
effect on thyroid function 395
pregnancy 307, 338, 343
β-hCG levels 343
C57BL/6J mice, hyperinsulinemia 307
and diabetes 338
prolactin levels 343
preterm labor 343
24 hr plasma β-hCG profiles 343
24 hr plasma prolactin profiles 343
procollagen 234
aminoterminal propeptide of type three 234
serum levels in acromegaly 234
serum levels in Cushings syndrome 234
carboxyterminal propeptide of type one 234
serum levels in acromegaly 234
serum levels in Cushings syndrome 234
progesterone 301
progestogens 428
prolactin 164, 200, 343, 367, 481, 491, 565
effect of β-mercaptoethanol 565

on secretion 565
effect of alprazolam 220
on CRH-induced changes 200
on stress-induced changes 200
effect of verapamil on secretion 481
drug-induced hyperlactinemia 481
spontaneous hyperlactinemia 481
hyperprolactinemia 164, 481
response to bromoergocriptine 164
oral administration 164
vaginal administration 164
mouse mammary gland explants 367
effect on casein kinase activity 367
effect on casein mRNA accumulation 367
effect on casein synthesis 367
24 hr plasma profiles in preterm labor 343
systemic hypertension 491
effect of ACE inhibition 491
prolactinoma 481
propranolol 169
prostaglandin E_2 (PGE_2) 374
synthesis in osteoblast-like cells 374
induced by prostaglandin $F_{2\alpha}$ 374
effect of retinoic acid 374
prostaglandin $F_{2\alpha}$ ($PGF_{2\alpha}$) 374
induction of PGE_2 synthesis 374
in osteoblast-like cells 374
effect of retinoic acid 374
prostate 81, 82, 83
cancer 81, 83
IGF axis 83
IGF axis 81
normal cells, IGFs 82
prostatic hyperplasia, benign 81, 84
IGF 84
proteases 137
nuclear, regulation of histone levels 137
protein breakdown 137, 175
protein kinase A 141
effect on EGF-induced rounding 141
epidermal A-431 carcinoma cells 141
protein kinase C 141
effect on EGF-induced rounding 141
epidermal A-431 carcinoma cells 141
protein nutrition 137
mouse liver nuclei 137
influence on histone content 137
influence on proteolytic activity 137
proteinases 175
proteolytic activity 137, 444
isolated mouse liver nuclei 137
proteolytic enzymes 444
pseudopregnancy 428
psychogenic impotence 440
melatonin levels 440
Pump-Pocket 75
complications 75
purines 389
effect on oxypurine metabolism of HuH-7 cell line 389
purine nucleotides 504
erythrocytes, effect of exercise 504
pyridostigmine 288
effect of GH secretion in acromegaly 288
pyruvate dehydrogenase 88, 397
effect of long-term sucrose-rich diet 397
pyruvic acid 88

R

radiodiagnosis 453
somatostatin receptor positive tumors 453
red blood cells 283
glucose transporter intrinsic activity 26
reduced in diabetics 26
renal failure, chronic 246
hemodialysis 246
ANP levels 246
BNP levels 246
thyroid hormone levels 246
renin 255
release, effect of insulin 255
reserpine 494
brown adipose tissue
effect on uncoupling protein mRNA 494
resistance training 330
effect on GH response in older adults 330
retinoic acid 374
osteoblast-like cells 374
effect on $PGF_{2\alpha}$-induced PGE_2 synthesis 374
rounding 141
EGF-induced 141
in epidermoid A-431 cells 141
involvement of high-affinity binding site for EGF receptor 141
RU846 97
rumen 424
incubation of *Solanum malacoxylon*, active fraction 424

S

Sandostatin® 184
Schlichtkrulls M value 574
screening methods 43
ELISA for non-classical 21-hydroxylase deficiency 43
SDZ 216-927 (Ga-labeled DFO-octreotide) 453
seminal plasma 81
IGFs 83
serum 617
of rat, lactate dehydrogenase activity 617
serum proteins 313
sex differences 326
DHEA metabolism in rat 326
sex hormones 301, 602
relationship with lipoprotein(a), healthy males 602
sex hormone binding globulin 297, 436
effect of exercise on plasma level in men 297
levels in IDDM 436
sexual behavior 371
effect of contraceptive steroids 371
young rats pretreated with benzpyrene 371
young rats pretreated with allylestrenol 371
Siemens Promedos ID3 65
small intestine 53, 85
fatty acid synthesis 85
iron absorption, effect of 17β-estradiol 53
sodium chloride load 409
effect of N^{ω}-nitro-l-arginine methyl ester 409
response in hyperthyroid rats 409
response in hypothyroid rats 409
Solanum malacoxylon 424
ruminal-fluid treated 424
polar derivative of 1,25-dihydroxyvitamin D_3 424
somatostatin 148, 270, 288
changes in glucose metabolism 270
tone in acromegaly, effect of glucocorticoids 288
somatostatin derivative 008 270
changes in glucose metabolism 270
somatostatin receptor 453
somatostatin receptor positive tumors 453
PET studies 453
somatotrophs, rat 565
effect of β-mercaptoethanol 565
D-sorbitol 222
sorbose 26
spinal cord injury 152
reduced GH secretion 152
reduced IGF-I secretion 152
spironolactone 46
spleen 363
growth and development 363
rat 363
expression of IGFBP-2 363
stimulation by GH 363
expression of IGF-I 363
stimulation by GH 363
steady-state plasma glucose method 184
with octreotide, verification 184
streptozotocin diabetic rats 313, 316, 355, 387, 615
stress 200
activation of pituitary-adrenal axis 200
effect of alprazolam 200
stromal cells 81
subcutaneous tissue 515, 523, 538
glucose concentration 515, 523, 538
implantation of glucosensors 515
sucrose 383, 397
sucrose-rich diet 397
effect on pyruvate dehydrogenase 397
sugar transport 26
superoxide radicals 1
systems A and L 611

T

tamoxifen 100
effect on plasma cholesterol 100
effect on total body calcium content 100
lipid lowereing mechanism 100
tasar silkworm 570
effect of L-thyroxine on free amino acids 570
in haemolymph plasma 570
teratogenesis 213
testosterone 19, 55, 226, 297
effect of exercise on plasma level in men 297
production in Leydig cells 55
thyroglobulin 419
thyroid autoantibodies 238
incidence in endemic goiter 238
thyroid follicles 413, 465
human 465
effect of δ-iodolactone on proliferation 465
intact porcine 413
IL-1β binding 413
thyroid function 395
children with nephrotic syndrome 395
effect of prednisone 395
thyroid growth 465
thyroid hormone 133, 246, 470
chronic renal failure 246
level changes during hemodialysis 246
modulation of GGT expression in rat liver 133
thyroid stimulating antibody 419

thyroid stimulation blocking antibody 5
thyroiditis 5, 413, 419
  autoimmune 5, 413
  subacute 419
thyroliberin 173
  activity in neonatal rat pancreas 173
thyroperoxidase antibody 419
thyrotrophin 419
L-thyroxine (T_4) 548, 570
  effect on free amino acids 570
    haemolymph plasma of tasar silkworm 570
total peroxyl radical-trapping antioxidant parameter 313
  serum of diabetic rats 313
transferrin soluble receptor 311
  detection of erythropietin misuse in athletes 311
triacylglycerol lipase 19
triglycerides 85, 297, 432
  effect of exercise in men 297
3,5,3′-triiodothyronine (T_3) 226, 470
  effect on androstanediol glucuronide serum level 226
  serum response to glucose ingestion 470
trypsin proteolysis 160
TSH binding inhibitory immunoglobulin (TBII) 5
  negative antibody 5
  positive antibody 5
TSH receptor antibody (TRab) 5
tumor necrosis factor α 447, 612
  role in IDDM 447
  role in NIDDM 447
tumor necrosis factor β 612
tyrosine aminotransferase 97
  stress-induced activity in rat liver 97

U

Ulm Zucker Uhr System 510
ultralente insulin 591
uncoupling protein 494
  mRNA in brown adipose tissue 494
    effect of reserpine 494
unsaturated iron binding capacity 313
  serum of diabetic rats 313
urine 326
  plasma levels of DHEA following dietary supplement 326
    sex differences in rat 326
urolithiasis 383
  effect of chocolate ingestion 383
uterine fluid 250
  infertile women 250
    lactate dehydrogenase isoenzyme levels 250
uterine oxytocin receptor 442
  detection with scraped endocervical cells 442

V

vanadate 360
  effect on insulin extraction by rat liver 360
vascular complications, end-stage 119
    IDDM, plasma endothelin levels 119
vasodilation 109
verapamil 481
  drug-induced hyperprolactinemia 481
    effect on calcium secretion 481
    effect on prolactin secretion 481
  spontaneous hyperprolactinemia 481
    effect on calcium secretion 481
    effect on prolactin secretion 481
    effect on thyrotrophin secretion 481
Vero cells 322
  effect of high glucose 322
    on cell growth 322
    on lipid peroxidation 322
vitamin D 424
vitamin D_3, 1,25-dihydroxy- 424
vitamin D_3, 1,24,25-trihydroxy- 424
vitamin E 450
  delayed onset of diabetes in non-obese diabetic mice 450

W

Walker carcinosarcoma 256, in host rats 309
    hypercalcemia 309
      role of 1,25-dihydroxyvitamin D 309
    role of parathormone-related protein 309

X

xanthine oxidase-deficient hepatoma-derived cell line HuH-7 389
  oxypurine metabolism 389
    effect of allopurinol 389
    effect of purine 389
xanthinuria 389
X-ray absorptiometry 428
  dual-energy (DEXA) 428

Z

zearalenone 253
  ovariectomized rats 253
    effect on glycagon content 253
    effect on insulin/glucagon ratio 253
zinc 243, 404
zinc deficiency 404
  force-fed rats 404
    effect on GH 404
    effect on insulin 404
    effect on IGF-I 404
  and serum ACE levels 243
